

## Product Guarantee

Ashford Electrical testing would reassure all of our customers that we purchase all of our items from local reputable suppliers only. We have used the same suppliers for many years, and we stick to them due to the quality of the parts and electrical goods they sell.

All parts come with a 1 year manufacturer's guarantee. We expect them to last a lot longer. If you do have cause for concern, please get in touch with us via our contact page on our website.
